### Step 2

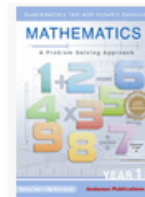

Select your Download Category (Subject to download).

#### Download Category

- ▶ Mathematics
- ▶ General Science

### Step 3

Select the Subject title i.e. Year 1 Mathematics

#### Mathematics Year 1

Writer : Ng Kim Hock

Publisher : Andaman Publications Sdn Bhd

### Step 4

Click on the Download (Volume 1) or Download (Volume 2) button in the Free Downloads section of a particular subject title.

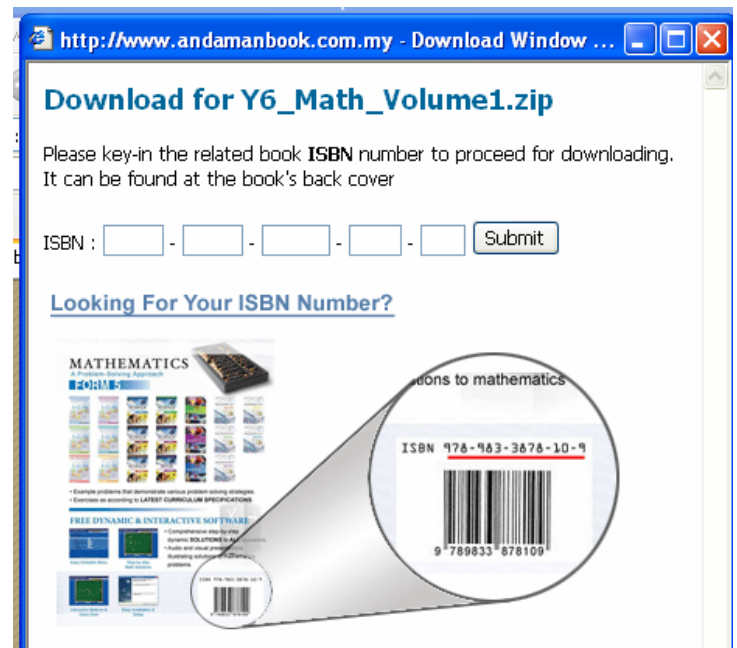

#### Free Downloads

Volume 1 (58.81MB)

Volume 2 (50.14MB)

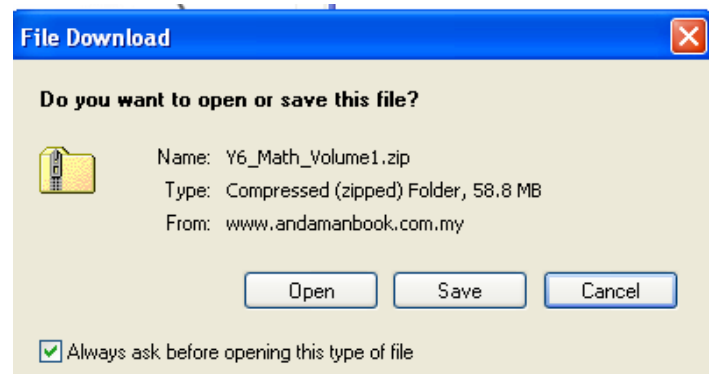

### Step 5

A pop-up window will prompt for the ISBN number of the book with the same subject title prior to download. You will need to purchase the Book before you can download the particular E-Tutor solution from our website.

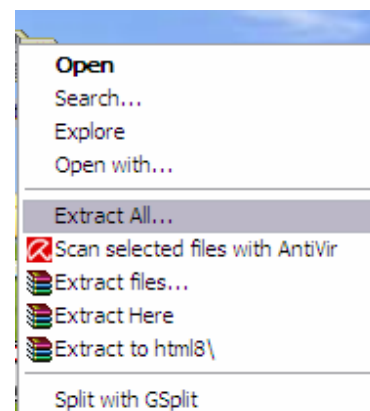

### Step 6

If your ISBN number is correct, another pop-up window will ask whether you would want to "Open" or "Save" the file. Click on the "Save" button and select the location of your choice to save the download files. DO NOT click on the "Open" button.

### Step 7

All downloaded E-tutor files are compressed by ZIP format. If you are using Windows XP, then right mouse click and select "Extract All" from the pop-up menu. Or you can use any compression software of your choice to uncompress your files.

**Step 8**

Once uncompressed, double-click on the setup or installation file to install/run the E-Tutor program.

**Step 9**

When the install shield start running, click next on each screen and also Accept the Terms and Conditions in order to continue with the installation. Key-in your name and organization during the installation process and select complete setup type to finish the installation.

**Step 10**

Once the installation process completes, look for the shortcut icon i.e. Mathematics Year 1(1) on your desktop. Double-click on that icon to launch and use E-Tutor.
